Preliminary Examination

SPANISH

Time Allowed : 45 minutes

You may use a bilingual dictionary during this examination

Imagine you are one of the people in the picture shown below. Write an essay of 120 to 150 words in Spanish describing what the picture shows, what happened before and what is going to happen subsequently. Your essay must be in the appropriate present, past and future tenses and you will gain nothing by writing more than the number of words required, as your essay will be judged on its accuracy and on the variety of vocabulary and structure used, not on its length. **No credit will be given for irrelevant material.**
