

X822/75/11 Economics

WEDNESDAY, 29 MAY 1:00 PM - 3:00 PM

Total marks — 90

SECTION 1 — 40 marks

Attempt BOTH questions.

SECTION 2 — 50 marks

Attempt ALL questions.

You may use a calculator.

Write your answers clearly in the answer booklet provided. In the answer booklet you must clearly identify the question number you are attempting.

Use **blue** or **black** ink.

Before leaving the examination room you must give your answer booklet to the Invigilator; if you do not, you may lose all the marks for this paper.

SECTION 1 — 40 marks Attempt BOTH questions

1. UK RECESSION AVOIDED IN FIRST HALF OF 2023

(a) Define the terms as used in the passage:

Economists regularly look at economic indicators to try to make predictions about the UK economy. Factors such as the COVID pandemic and the invasion of Ukraine by Russia have had a negative effect on the UK economy. The annual UK growth rate in May 2023 was a low 0.2%, whilst inflation was 8.7%.

The continuing cost of living crisis has meant that UK household spending on non-essentials, including some imported goods and services, remains low. This has both weakened the **exchange rate** for sterling and negatively affected UK domestic firms.

On a positive note, UK unemployment was lower than the rate in the EU. The Bank of England predicted that the UK would avoid a **recession** in 2023 after analysing relevant data.

()				
	(i) exchange rate	1		
	(ii) recession.	1		
(b)	Describe 2 methods of measuring UK unemployment.	2		
(c)	Describe causes of unemployment.	4		
(d)	Describe one effect of unemployment on: individualsUK firms			
	UK government.	3		
(e)	(i) Explain the reason for firms having to make choices.	1		
	(ii) Suggest an example of an opportunity cost for a firm.	1		
(f)	Suggest the ways in which a fall in the standard of living can be measured.	2		
(g)	Explain a way in which a fall in the value of sterling against the Euro may affect a UK holidaymaker going to a Eurozone country.			
(h)	Describe 3 measures a government could take to reduce the level of imports.

2. REPLACING FUEL DUTY AND ROAD TAX

(a)

Government tax receipts 2022/2023 (extract)

The UK government raises £35bn a year from fuel duty and road tax, however it faces falling tax revenue as drivers switch to electric/hybrid vehicles. As the UK government aims for 'net zero' carbon emissions, it is having to rethink how to tax motorists.

(i) From the chart, identify **one** direct and **one** indirect tax.

- (ii) Describe features of an indirect tax. 2

 (iii) Excluding road tax, name **one** tax that could be classified under the 'other
- taxes' heading.
- (b) (i) Other than having low carbon emissions, describe 3 factors that could increase the demand for electric/hybrid cars.
 - (ii) Explain, using a diagram, in what way the market for petrol/diesel cars could be affected by an increase in popularity of electric/hybrid cars.
- (c) Describe possible ways a government could raise revenue from motorists in the future.
- (d) (i) Identify **one** main area of UK Government spending.
 - (ii) Explain a possible reason for the UK Government spending on the area identified in (d)(i).
- (e) (i) Explain reasons for UK families being more likely to own cars than families in developing economies.
 - (ii) Describe 2 types of aid given to developing economies.

SECTION 2 — 50 marks Attempt ALL questions

3.	(a) Describe the process by which the price of a good settles at equilibrium following:				
		• a surplus			
		• a shortage.	4		
	(b)	Suggest 3 determinants which may result in a fall in the supply of mobile phones.	3		
	(c)	Explain the reasons why the supply curve usually slopes upwards from left to right.	3		
4.	(a)	Describe, using examples, fixed costs and variable costs.	4		
	(b)	Suggest measures a firm may take to increase its profit.	3		
	(c)	Define the term average cost.	1		
	(d)	Draw a diagram to show the shape of an average total cost curve.	2		
5.	(a)	Draw a diagram to show the circular flow of income in a closed economy.	4		
	(b)	Explain the effects of a decrease in government spending.	2		
	(c)	Explain what causes:			
		(i) demand-pull inflation	2		
		(ii) cost-push inflation.	2		
6.	(a)	(i) Name a famous Scottish entrepreneur.	1		
		(ii) Describe 2 benefits their business might bring to the UK economy.	2		
	(b)	Describe a reason for Scotland's:			
		high level of employment in the tourism industry			
		low level of employment in the shipbuilding industry.	2		
	(c)	Define the term global trade.	1		
	(d)	Describe possible disadvantages of global trade to UK exporters.	2		
	(e)	Describe reasons for imposing barriers to trade.	2		

			MARKS
7.	(a)	(i) Describe what is meant by a multinational company.	1
		(ii) Give an example of a multinational company.	1
	(b)	Outline 3 reasons for a firm choosing to become a multinational.	3
	(c)	From the following list, identify 2 developing economies:	
		• Sweden	
		Bangladesh	
		Australia	
		• China	
		• Ethiopia	
		• USA.	2
	(d)	Outline 3 economic characteristics of developing economies.	3
